

CAPRI

A side pole parasol with a modern and elegant design, which rotates 360° around its base and is easily opened by means of a crank handle.

Ideal for both commercial use (hotels, restaurants...) and for residential use (villas, private gardens).

The ribs can be replaced individually without needing to disassemble the entire structure and the canopy fabric is easily removed for maintenance or replacement.

It is available in two versions: aluminium framework or fine wood framework treated with a protective coating and aluminium accents. Stainless steel hardware.

A stabilizer bar assures higher parasol stability in very windy conditions.

Capri can be supplied with a freestanding base or in-ground mount.

All FIM products are designed and made in Italy, using the best materials for outdoor use, in order to guarantee exceptional durability even under the most demanding environmental conditions.

BASI

COD. GBASE003400

GRUPPO BASE PIASTRA ALU 1

Powder coated aluminium base. Requires concrete pavers 50x50 cm.

COD. PCART001301

COPERTURA BASE PIASTRA ALU 1

Cover made of powder coated aluminium for GBASE003400.

COD. GBASE004200

GRUPPO BASE ALU 3 H120 S/ ST C/PIED

Free-standing base made of powder-coated aluminium. Requires concrete pavers 50x50 cm.

COD. GBASE003700

GRUPPO BASE P ALU 4 80x80

Powder coated aluminium base. Requires concrete pavers 40x40 cm. Optional wheels.

COD. GRUOT000100

GRUPPO KIT RUOTE D50 X BASE P ALU 4 80X80

COD. GBASE000900

GRUPPO BASE STYLO UNIV + PR

Galvanized steel base to be set into concrete.

COLOURS

Acrylic fabric

Water repellent and stain-resistant acrylic fabric. Available in Ecu (raw) colour.
The ideal fabric, excellent value.
290 gr/m².

Solution dyed Acrylic fabric

Designed for outdoor use, the solution (spun) dyed acrylic fabric resists salt water, chlorine and any type of harsh climate. Colours do not bleed and remain vibrant for a long time. A specific treatment makes the fabric water repellent, mould resistant and protects it from staining. This type of fabric resists the most extreme conditions and is suitable for year-round use in gardens, terraces, pool sides or on-board boats. It's definitely the top choice canopy fabric to select for your Product.
UPF 50+ (UV Protection Factor) 280 gr/m².

Micro-Mesh fabric

This fabric allows natural air flow and has an excellent resistance to wind, ensuring a pleasant shading at the same time. Suggested to those who want a surely eye-catching alternative fabric. Its fibre composition, taking advantage of the "Precontraint" technology, guarantees an exceptional resistance to tearing, ultraviolet light and mould.
410 gr/m².

Airfim fabric

Waterproof fabric assuring total protection from rain, which does not even permeate the stitches. A stain-resistant treatment contributes toward a better dirt resistance of the fabric, too. A regular wash with a neutral cleaning agent guarantees a long lifespan.
UPF 80 (UV Protection Factor) 190 gr/m².
