

# RODI

*Innovative design allows the open and tilted parasol to be rotated 360° around its base and is easily opened by a crank handle. A single motion closes the parasol towards the pole, without need to relocate any furniture under it.*

*Ideal for both residential use (villas, private gardens) and commercial use (hotels, restaurants...).*

*Each rib can be replaced individually without needing to disassemble the entire structure and the canopy fabric is easily removed for maintenance or replacement. The structure is made of aluminium with stainless steel hardware. A stabilizer bar assures higher parasol stability in very windy conditions.*

*Rodi can be supplied with a freestanding base or in-ground mount.*

*All FIM products are designed and made in Italy, using the best materials for outdoor use, in order to guarantee exceptional durability even under the most demanding environmental conditions.*
