

# COLORE

Tutti i tessuti utilizzati sono di alta qualità, realizzati con materiali resistenti alle intemperie e all'usura del tempo. Un trattamento apposito li rende idrorepellenti e li protegge dalle macchie. I nostri tessuti si dividono in queste tipologie:  
**Acrilico Ecrù**, alto rapporto qualità prezzo;  
**Acrilico tinto in massa**, con massima resistenza dei colori;  
**Microforato**, soluzione ideale per ambienti ventosi, permette la naturale circolazione dell'aria;  
**Airfim**, totalmente impermeabile, ideale per un utilizzo professionale;  
**Olefim**, totalmente riciclabile.

We use only high quality fabrics with proven durability in outdoor applications, and specially treated to be water and stain repellent. The following fabrics are available:  
**Acrylic Ecrù**: Excellent durability and value for neutral colours;  
**Solution-dyed Acrylic**: Superb fade resistance and durability, this is the best choice for long lasting, vibrant colours;  
**Micro-Mesh**: The ideal solution for windy locations, allowing air to pass through the fabric;  
**Airfim**: Completely waterproof, excellent for commercial use;  
**Olefim**: Fully recyclable fabric is environmentally friendly.

Tous les tissus utilisés sont haut de gamme, réalisés avec matériaux qui résistent aux intempéries et à l'usure dans le temps. Un traitement spécial les rend hydrofuges et leur assure une protection contre les taches. Nos tissus sont les suivants:  
**Acrylique Ecrù**, permet d'avoir un premier prix attractif;  
**Acrylique teinté masse**, avec son excellente tenue des couleurs;  
**Micro ajouré**, la meilleure solution pour les environnements venteux qui permet une utilisation du parasol plus souvent;  
**Airfim**, imperméabilité totale, idéal pour une utilisation professionnelle;  
**Olefim**, entièrement recyclable.

Wir benutzen ausschliesslich Qualitätsstoffe mit erwiesener Wetterfestigkeit, imprägniert und somit Schmutz-und Wasserabweisend. Die folgenden Stoffe sind verfügbar:  
**Acryl Ecrù**: Sehr langlebig und preiswert, ideal für neutrale Farben;  
**Acryl spinndüsengefärbt**: Extrem farbecht und dauerhaft, beste Wahl für langlebige, vibrante Farben;  
**Mikro-Netzgewebe**: Ideale Lösung für windige Gegenden, da der Stoff luftdurchlässig ist;  
**Airfim**: Komplet wasserdicht, optimal für kommerzielle Projekte;  
**Olefim**: Umweltfreundlich, kann komplett recycled werden;

Todos los tejidos empleados son de alta calidad, realizados con materiales resistentes a la intemperie y muy duraderos. Tienen un tratamiento especial hidrófugo, protegiéndolos de las manchas.  
 Tipologías de tejidos:  
**Acrílico Ecrù**, elevada relación calidad precio;  
**Acrílico colorado en masa**, máxima resistencia de los colores;  
**Microperforado**, solución ideal para ambientes con mucho viento, permite la natural circulación del aire;  
**Airfim**, totalmente impermeable, ideal para utilización profesional;  
**Olefim**, totalmente reciclable.
