Protects from UV

WARRANTY  
5  
YEARS  
Colour retention

## Uv filter - enjoy the sun safely

- > Ozone layer depletion has caused a reduction in the filtering of ultraviolet rays. This, in turn, entails that prolonged, unprotected exposure to the sun poses increased health risks. All P6 and P7 fabrics have the capacity to significantly reduce the penetration of UV rays and offer you and your children the perfect protection from the harmful effects of sunrays (100% of UV rays are filtered out). The 2 lighter colours (White sand and Natural white) filter 95% of the UV's.

- > The Skin Cancer foundation recommends Dickson Acrylic as a part of your complete sun protection regime, including regular use of sunscreen.

- > This label certifies that the fabrics do not contain any toxic substances and do not present any health, skin or environmental hazards (Oeko-Tex 100).

## Repair kit - prolong the life of your umbrella

The Prostor Repair kit is a unique transparent repair patch for repairing tears and holes in acrylic and polyester fabrics. It is extremely strong and very elastic. The Repair kit is a permanent solution for your umbrella fabric, allowing you to enjoy your umbrella even longer.

- > Extremely strong
- > Watertight
- > Airtight
- > Very elastic
- > Does not fade
- > Does not dry out

## Maintenance - let your umbrella shine like new
