

A close-up photograph of a wooden chair leg and a woven seat cushion. The wood is light-colored with a visible grain. The woven fabric is a mix of brown, tan, and white threads. The image is split diagonally from the top-left to the bottom-right. The top-left corner features a repeating geometric pattern of interlocking lines in a light beige color. The bottom-right corner is a solid white area.

ERAMBERTI

L'ESPERIENZA E
LA TRADIZIONE
SONO IL FRUTTO
DELL'INNOVAZIONE.

La nostra Azienda è presente sul mercato italiano ed estero da oltre sessant'anni. Un così lungo e costante contatto con la Clientela ci ha arricchito di una profonda conoscenza delle molteplici e diversificate esigenze sottoposteci dagli addetti al settore.

Grazie, quindi, all'esperienza accumulata in tanti anni siamo ora in grado di risolvere una variegata gamma di problematiche che una nutrita Clientela continua ad esporci. Abbiamo, perciò, provveduto a diversificare in vari modelli i nostri prodotti, al fine di dare adeguata risposta alle sempre più articolate richieste degli utilizzatori. Agli oggetti più specificatamente per la spiaggia ne stiamo aggiungendo numerosi altri nuovi ideati per le spa, centri benessere, complessi termali, piscine pubbliche, palestre ecc., avvalendoci di noti professionisti del design e dei più sofisticati strumenti tecnologici. In un mercato sempre alla continua ricerca di un elevato rapporto qualità-prezzo, abbiamo di proposito abbandonato la produzione di merce di tipo troppo corrente per dedicare tutta la nostra cura ed attenzione ad oggetti di eccellenza, assicurando anche un'efficace assistenza post-vendita.

Ci preme, sottolineare che la nostra Azienda è strutturata con più punti produttivi dotati delle più avanzate metodologie e di attrezzature continuamente aggiornate.

Le diverse realtà industriali, facenti capo al nostro gruppo, ci consentono un attento controllo dell'intera filiera dei nostri prodotti: dal filato al tessuto, dai manufatti in alluminio alle stecche degli ombrelloni, dagli articoli in legno ai numerosi tipi di accessori.

EXPERIENCE AND
TRADITION ARE THE
RESULTS OF INNOVATION

Our company has been working on the Italian market and abroad for over sixty years. This long-lasting and constant contact with our customers has enriched our knowledge about the numerous and diverse needs presented by the workers in this sector.

Thanks to our multi-year experience we can now solve a wide range of problems raised by our large pool of customers. In order to satisfy the increasingly complex requests of the users, we had to diversify our products in various models. Through the collaboration with well-known designers and the use of technologically advanced tools, we are now adding many new products conceived for spas, wellness centers, thermal baths, public swimming pools and gyms to the ones specifically suited for the beach. In a market that is constantly looking for the best quality/price ratio, we deliberately chose to abandon the production of common items to dedicate all of our attention and care to excellence products, guaranteeing also an effective after-sales assistance.

Our company is structured with many different production sites, all equipped with the most advanced methods and constantly updated tools. The different industries that are a part of our group allow us to carefully control the whole supply chain of our products: from the yarn to the fabric, from the aluminum frames to the umbrella ribs, from the wooden products to the various kinds of accessories.

Quattro posizioni dello schienale: Alle consuete due (comuni ai normali lettini) ne sono state aggiunte altre due. La prima consente di erigere lo schienale ad angolo retto e permette all'utilizzatore di sedersi comodamente appoggiando la schiena a mò di poltroncina. Con la quarta, si ha un perfetto allineamento dello schienale con il resto del lettino, rendendo possibile anche una confortevole posizione supina.

Four positions of the backrest: we added two more positions to the usual two that are common to standard sunbeds. The first allows you to set the backrest at a right angle as if it were a normal chair. The fourth allows you to make it completely flat for a comfortable lying-down position.

KOMMODO

È munito di un sistema per l'inclinazione dello schienale che elimina il tradizionale cordoncino e permette quattro diverse posizioni ottenibili rimanendo comodamente distesi sul lettino. È sufficiente, infatti, agire sulle manopole di cui il lettino è provvisto, per posizionare lo schienale nella maniera desiderata. L'ingranaggio è anche dotato di carter salvadita.

The bed is fitted with a back inclination system that eliminates the traditional rope. The four different positions can be obtained while still lying down. To place the back in the required position, simply pull the handle. The mechanism is also fitted with a finger protection cover.

finiture

FINISHES

I nostri lettini, sdraio e poltroncine sono costruiti con alluminio di prima scelta. Sottoposti a speciale trattamento di anodizzazione, è garantita una perfetta inalterabilità anche nelle peggiori condizioni d'uso. Tutta la ferramenta è in acciaio inox. L'alluminio dei nostri articoli può essere richiesto nelle seguenti colorazioni:

Our sunbeds, deckchairs and armchairs are constructed in top quality aluminium. The special anodising surface treatment guarantees inalterability even under the severest working usage conditions. All the fittings are in stainless steel. The aluminium used in our products is available in the following colours:

Per quantitativi importanti possono essere fornite colorazioni particolari su richiesta del Cliente. La produzione di serie dell'alluminio è anodizzato color argento, per coloriture diverse, è necessaria una prenotazione con largo anticipo sui tempi di consegna. Tutti i nostri lettini sono dotati del sistema SICURBLOCK sostitutivo delle staffe e collaudato da decenni.

If required by the client, special colours can be produced for large quantities. The current production of aluminium has a silver coloured anodised finish; any other colours must be ordered well in advance and will involve much longer delivery times. All our sun loungers are fitted with the SICURBLOCK hinge bracket replacement system, tried and tested for over ten years.

A photograph of a beach at sunset. The sky is filled with soft, orange and yellow clouds, with the sun low on the horizon. In the foreground and middle ground, numerous closed teal beach umbrellas are scattered across the sand. Interspersed among the umbrellas are dark-colored lounge chairs with metal frames. The overall atmosphere is calm and serene.

ombrelloni
SPIAGGIA

L'amore per il particolare e la cura del dettaglio hanno reso famosi tutti i nostri articoli, il nostro fiore all'occhiello resta, pur sempre, la produzione di ombrelloni per stabilimenti balneari. A decretarne il successo incontrastato è stata da oltre 60 anni una meticolosa ricerca della perfezione e sono nati, così, ombrelloni in grado di soddisfare ogni esigenza di gusto, qualità e prezzo.

The care and attention to detail have made all our products famous, but our flagship still remains the production of umbrellas for beaches and bathing establishments. Its undisputed success comes from a sixty-year-old meticulous research for perfection. In this way, we created umbrellas that can satisfy every need in taste, quality and price.

tipologie ombrelloni per stabilimenti balneari

TYPES OF UMBRELLAS FOR BATHING ESTABLISHMENTS

Per tutti i nostri articoli per stabilimenti balneari è possibile ottenere diversi abbinamenti tra il tessuto acrilico per ombrelloni ed il tessuto plastificato per sdraio, lettini, poltroncine.

For all our articles for bathing establishments, we can supply different combinations between the "Mocriilmare" material for the sunshades and the plasticized material for the sunloungers, deckchairs and armchairs.

Mantovana ombrelloni

- 1 - tradizionale
- 2 - senza mantovana
- 3 - una sola onda
- 4 - onde multiple

Beach umbrella valance

- 1 - Traditional
- 2 - without valance
- 3 - Single wave
- 4 - Multiple wave

Per zone esposte a vento di particolare intensità, gli ombrelloni possono essere richiesti con sfiatatoio.

For particularly windy zones, the sunshades can be supplied with a vent.

Prima di decidere l'acquisto, leggete attentamente tutte le opportunità di scelta offerte e descritte nelle pagine che seguono

Tessuto acrilico 100% tinto in pasta di massima robustezza.

COVER:
Heavy duty paste dyed 100% acrylic fabric.

VITE
SCREW

Nei nostri ombrelloni la copertura viene normalmente fissata ai terminali delle stecche con viti inox e con particolare rinforzo.

Usually, the cover of our umbrellas is secured to the end of the ribs with stainless steel screws and a special fabric reinforcement.

TASCA
POCKET

A richiesta la copertura viene fissata con rinforzo a forma di tasca contenente i terminali delle stecche.

Upon request, the cover is held in place by reinforced pockets in which the end of the ribs is inserted.

materie prime

REGGI OMBRELLONE CON TAVOLINETTO

UMBRELLA SUPPORT WITH ROUND TABLE

COMPOSTO DA TRE PARTI:

Tavolinetto rotondo (colori: beige, arancio, giallo, verde, blu, bianco), colonna esclusivamente bianca. Giunto da diametro 38 - 40 mm o a baionetta. La colonna va parzialmente inserita nella sabbia e una volta unita al giunto, sostituisce il palo inferiore dell'ombrellone.

MADE UP OF THREE PARTS:

Round table (colours: orange, yellow, green, blue, white, beige) Pole: white only. Bayonet joint diameter 38- 40 mm The holder should be partially driven into the sand, and once the joint has been added, it substitutes the lower part of the sunshade pole.

BLOCCA OMBRELLONE

UMBRELLA LOCK

Per tutti i tipi di ombrellone che abbiano il palo con bordo finale. E' composto da n°3 elementi in materiale plastico di alta qualità e 2 grani in acciaio inox. E' lasciata all'ombrellone la possibilità di ruotare e quindi anche in CASO DI VENTO PARTICOLARMENTE INSISTENTE, le stecche non subiscono danni come potrebbe accadere qualora fosse impossibilitato a ruotare. Facilissimo l'assemblaggio anche su ombrelloni usati.

For all types of umbrella poles with a bottom edge. The system consists of 3 high quality plastic elements and 2 stainless steel screws. The device allows the umbrella to rotate, as a result there is no TENDENCY FOR HIGH WINDS TO DAMAGE THE RIBS, which could happen if the umbrella is fixed. Extremely simple to fit. Can also be used on existing umbrellas.

PEDANE PER ESTERNO OUTDOOR PLATFORM

PEDANA MATTONELLA TILE PLATFORM

cm 50x70
cm 50x100
Materiale:
antiscivolo e stabilizzato
ai raggi U.V.

Ogni mattonella è corredata di appositi ganci che ne consentono l'unione sia dal lato lungo, sia da quello corto. E, perciò, possibile ottenere pavimentazioni di qualsiasi dimensione o passerelle larghe cm. 50 - 70 - 100 e con lunghezza a piacere.

cm 50x70
cm 50x100
Material:
slip-resistant and UV-rays
stabilized.

Each tile has specific hooks that allow the connection of the tiles both on the long side and on the short side. For this reason it is possible to create pavings of any dimension or boardwalks of a width of 50 - 70 - 100 cm and no limitation of length.

PEDANA IN LEGNO WOOD PLATFORM

cm. 92,5 x 100 cm

Pedana modulare in legno montata su 3 binari in alluminio fissata con appositi rivetti. Giunti in nylon inclusi. Moduli di dimensioni differenti a richiesta. Possono essere impiegate per normali passerelle e come pavimentazione per gazebo, spazio giochi, lastricato per piscine e centri fitness.

cm. 92,5 x 100 cm

Modular wood platform mounted on 3 aluminum rails and secured with specific rivets. Nylon junctions included. Modules of different dimensions available upon request. It can be used for regular boardwalks or for pavings for gazebos, children's playgrounds, swimming pools or fitness centers.

PEDANA IN LEGNO WOOD PLATFORM

cm. 100 x 100 cm

Pedana composta da profilo in alluminio che contiene una pedana di legno ricoperta dal nostro tessuto. Consente un frequente cambio di look a costi bassissimi, con personalizzazione per eventi (compleanni, matrimoni, comunioni ecc)

cm. 100 x 100 cm

Platform composed of an aluminum profile containing a wood platform, covered with our fabric. It allows a frequent change in look with very low costs, and the possibility of customization for events (birthdays, marriages, anniversaries, etc.)

ESAEDRO

La raffinatezza della lavorazione e dei materiali sono il punto di partenza per il progetto della collezione, dove il contrasto degli elementi e l'infinita possibilità di personalizzazione conferiscono carattere e fascino. L'utilizzo dei legni più pregiati consente di mantenere inalterata nel tempo la seduzione che si manifesta dal primo istante. I tessuti utilizzati sono disponibili in differenti cromie e trame di lavorazione, confezionate con cura sartoriale.

The refinement of workmanship and materials are the starting point for the design of the collection, where the contrast of elements and customization lend character and charm. The use of the most valuable timber allows you to keep unaltered the seduction that occurs from the first moment. The fabrics used are available in different colors and textures of processing packed with fine tailoring.
